The new building boasts 3 passenger vehicle bays and one extra high bay for commercial vehicles

RELOCATION

Feilding Tyre Service has not only moved into extensive new business premises, but it also has the distinctive honour of being the first Yokohama branded tyre centre in New Zealand. The business had outgrown the building it operated from over the last 30 years, so it relocated to new premises on Turners Road. The modern, spacious building has been extensively customised and is unmistakable with the famous Yokohama logo emblazoned on it. Feilding Tyres Services is locally owned and operated by Gwynn Wozencraft and Bev Dyer. Since purchasing the business in 2002 the company's reputation for providing quality products and outstanding service has grown from strength to strength. Feilding Tyres began stocking Yokohama Tyres two years ago, and the brand now represents a major portion of their business. Gwynn Wozencraft says, "As an independent tyre dealer we are excited to have been offered this outstanding opportunity to partner more closely with a globally respected brand like Yokohama. It will be a win/win situation for our customers. We are able to provide an even higher level of service from our

new premises, and offer competitive pricing across the full range of Yokohama passenger vehicle, 4WD and commercial truck tyres." The new premises offer three large bays for fast servicing of cars and four wheel drives, with a purpose built truck bay to service the trade. The large concrete yard provides easy access and a comfortable waiting room is available for customers. "Our partnership with Gwynn and Bev represents a new direction for Yokohama in New Zealand", says Radial Imports General Manager, Andrew Peake. As the exclusive NZ distributor for Yokohama, Radial Imports seeks to work closer with its circle of independent tyre dealers who are successfully promoting Yokohama tyres in their areas. "This extended association with Feilding Tyre Services enjoys in the Manawatu", adds Peake. "Thanks to them we have a growing number of drivers experiencing the benefits of Yokohama tyres, whether it's on their car, 4WD or fleet trucks." The grand opening of the new building will take place on Friday 1st June.
